Categories: Record Saved - Shared

Hey Jack -- So. I've forwarded the materials to the folks at GNH and had preliminary discussions with them re: what it might entail. I think an appropriate next step would be for the technical folks, i.e., Tom Sgroi, Gary Zrelak, Bruce Kirkland, and me to meet with you to make sure we understand what you would expect. Right now everyone's calendar is messy and we're probably looking at something the week of October 6 (it seems ridiculous doesn't it, but you know what it's like to coordinate multiple busy people!) Anyway, if you agree and would share some possible dates/times that work for you I'll keep working on the arrangements. Look forward to talking soon.

Jane

Hi Jane,

It's good to hear from you. I've been having a great summer, thanks, and I hope you have as well.

I'm glad you had a chance to connect with Mark Pollins. It is fine with us to start working on the substance of a CMOM agreement between GNHWPCA and EPA before we decide on the process.

I'm attaching a document that provides for GNHWPCA to (1) perform a self-assessment of its CMOM programs, (2) prepare a plan to address areas requiring further actions, and (3) provide annual reports on progress on CMOM action items.

Please forward this on to Sid and the appropriate folks at GNH. We look forward to hearing from you all to schedule a meeting.

And likewise, I'm happy to talk about any of this on the phone if you want to give me a call.

Thanks,
Jack

Hi Jack and Mike –

I hope both of your summer's have been going well since last we saw each other and that you got to enjoy the long Labor Day weekend.

I also hope that by this time you've heard from Mark Pollins with whom I spoke on August 28. (Joe Theis and I played a bit of phone tag that took long enough for Mark to return and return my call!) I thought we had a very pleasant and productive call. Without going into depth or detail or putting words in anyone's mouth, my takeaway was that for the time being we, GNH and Region 1, would focus on the substance (e.g., what could/should be done, performance expectations) rather than process or vehicle as a way forward.

As you may recall from our July meeting, we will be meeting with DEEP this month to follow up on matters discussed. Similarly, we look forward to meeting with you again to begin our substantive conversations. Either I or someone from GNH will be in touch soon to see what we can schedule.

As always, please feel free to call me if you want to discuss this or have any questions.

Thanks.

Jane
